Title: Fluorescent and colorimetric dual mode probe for detection of iodide through iodide/triiodide equilibrium

Authors: Maryam Jafari, Alireza Badiei, Alireza Shayesteh, Ahmad Amiri

PII: S1010-6030(18)30312-5
DOI: <https://doi.org/10.1016/j.jphotochem.2018.06.022>
Reference: JPC 11339

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 7-3-2018
Revised date: 7-6-2018
Accepted date: 7-6-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fluorescent and colorimetric dual mode probe for detection of iodide through iodide/triiodide equilibrium
