Title: Fragmentation of Imidazole, Pyrimidine and Purine Induced by Core Ionization; Significance of Small-Scale Chemical Environment

Author: E. Itälä S. Granroth D.T. Ha K. Kooser H. Levola E. Rachlew K. Tanzer E. Kukk

PII: S1010-6030(17)31165-6
DOI: <https://doi.org/doi:10.1016/j.jphotochem.2018.01.003>
Reference: JPC 11091

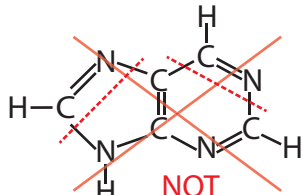

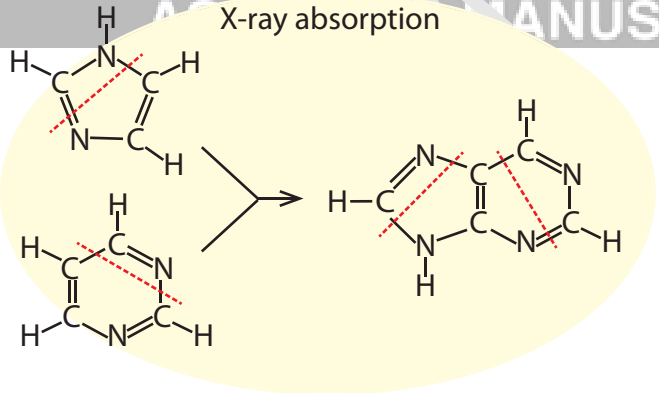

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 9-8-2017
Revised date: 2-1-2018
Accepted date: 2-1-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

X-ray absorption
