Title: Investigation on the morphology and photocatalytic activity of Cu_3SnS_4 synthesized by ball milling and solvothermal method

Authors: V. Maheskumar, B. Vidhya

PII: S1010-6030(17)31341-2
DOI: <https://doi.org/10.1016/j.jphotochem.2017.12.026>
Reference: JPC 11064

To appear in: *Journal of Photochemistry and Photobiology A: Chemistry*

Received date: 15-9-2017
Revised date: 13-12-2017
Accepted date: 16-12-2017

Please cite this article as: V.Maheskumar, B.Vidhya, Investigation on the morphology and photocatalytic activity of Cu_3SnS_4 synthesized by ball milling and solvothermal method, *Journal of Photochemistry and Photobiology A: Chemistry* <https://doi.org/10.1016/j.jphotochem.2017.12.026>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Investigation on the morphology and photocatalytic activity of Cu₃SnS₄ synthesized by ball milling and solvothermal method

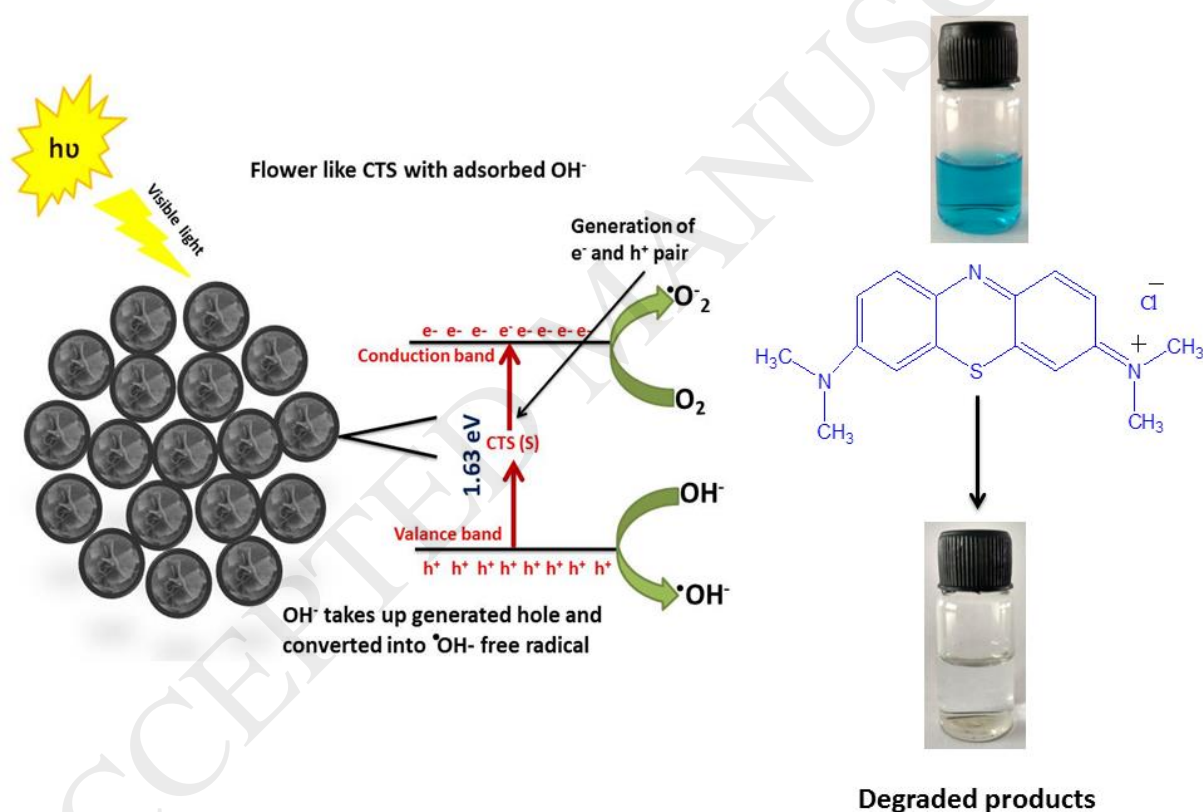

V.Mahes Kumar^a and B.Vidhya^{a,b*}
