

## Accepted Manuscript

Development of ionic liquid assisted-synthesized nano'silver combined with vascular endothelial growth factor as wound healing in the care of femoral fracture in the children after surgery

Xingli Li, Maohua Liu, Qun Wang, Chuanna Miao, Shumei Ju, Fang Liu

PII: S1011-1344(18)30100-3  
DOI: doi:[10.1016/j.jphotobiol.2018.03.003](https://doi.org/10.1016/j.jphotobiol.2018.03.003)  
Reference: JPB 11162

To appear in: *Journal of Photochemistry & Photobiology, B: Biology*

Received date: 29 January 2018  
Revised date: 25 February 2018  
Accepted date: 5 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Development of Ionic liquid assisted-synthesized nano-silver combined with vascular endothelial growth factor as wound healing in the care of femoral fracture in the children after surgery**
