

## Accepted Manuscript

Sunlight-induced genotoxicity and damage in keratin structures decrease tadpole performance

Caroline Peripolli dos Santos, James Eduardo Lago Londero, Maurício Beux dos Santos, Rayana dos Santos Feltrin, Luiza Loebens, Livia Bataioli Moura, Sonia Zanini Cechin, André Passaglia Schuch

PII: S1011-1344(17)31506-3  
DOI: doi:[10.1016/j.jphotobiol.2018.03.013](https://doi.org/10.1016/j.jphotobiol.2018.03.013)  
Reference: JPB 11172

To appear in: *Journal of Photochemistry & Photobiology, B: Biology*

Received date: 13 December 2017  
Revised date: 10 March 2018  
Accepted date: 12 March 2018

Please cite this article as: Caroline Peripolli dos Santos, James Eduardo Lago Londero, Maurício Beux dos Santos, Rayana dos Santos Feltrin, Luiza Loebens, Livia Bataioli Moura, Sonia Zanini Cechin, André Passaglia Schuch , Sunlight-induced genotoxicity and damage in keratin structures decrease tadpole performance. The address for the corresponding author was captured as affiliation for all authors. This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Sunlight-induced genotoxicity and damage in keratin structures decrease tadpole performance**
