

Accepted Manuscript

Title: Developments in and Prospects for Photocathodic and Tandem Dye-sensitized Solar Cells

Author: <ce:author id="aut0005" biographyid="vt0005" orcid="0000-0002-1311-8951"> Andrew Nattestad Ishanie Perera Leone Spiccia

PII: S1389-5567(16)30001-6
DOI: <http://dx.doi.org/doi:10.1016/j.jphotochemrev.2016.06.003>
Reference: JPR 245

To appear in: *Journal of Photochemistry and Photobiology C: Photochemistry Reviews*

Received date: 11-1-2016
Accepted date: 29-6-2016

Please cite this article as: {<http://dx.doi.org/>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Developments in and Prospects for Photocathodic and Tandem Dye-sensitized Solar Cells

Andrew Nattestad

ARC Centre of Excellence for Electromaterials Science, Intelligent Polymer Research Institute, the University of Wollongong

Ishanie Perera

Department of Chemistry, Faculty of Science, University of Peradeniya, Peradeniya 20400, Sri Lanka.

and

School of Chemistry, Monash University, Clayton 3800, Australia

Leone Spiccia

School of Chemistry, Monash University, Clayton 3800, Australia
