

Author's Accepted Manuscript

Engineering strategies for the fermentative production of plant alkaloids in yeast

Isis J. Trenchard, Christina D. Smolke

www.elsevier.com/locate/ymben

PII: S1096-7176(15)00063-4
DOI: <http://dx.doi.org/10.1016/j.ymben.2015.05.001>
Reference: YMBEN1000

To appear in: *Metabolic Engineering*

Received date: 14 January 2015

Revised date: 25 April 2015

Accepted date: 6 May 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting galley proof before it is published in its final citable form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Engineering strategies for the fermentative production of plant alkaloids in yeast

Isis J. Trenchard[^] and Christina D. Smolke^{^*}
