Title: Substrate specificity and transglycosylation activity of GH29 α -L-fucosidases for enzymatic production of human milk oligosaccharides

Authors: Birgitte Zeuner, Jan Muschiol, Jesper Holck, Mateusz Lezyk, Mattias Raae Gedde, Carsten Jers, Jørn Dalgaard Mikkelsen, Anne S. Meyer

PII: S1871-6784(17)30460-0
DOI: <https://doi.org/10.1016/j.nbt.2017.12.002>
Reference: NBT 1038

To appear in:

Received date: 24-8-2017
Revised date: 29-11-2017
Accepted date: 4-12-2017

Please cite this article as: Zeuner, Birgitte, Muschiol, Jan, Holck, Jesper, Lezyk, Mateusz, Gedde, Mattias Raae, Jers, Carsten, Mikkelsen, Jørn Dalgaard, Meyer, Anne S., Substrate specificity and transglycosylation activity of GH29 α -L-fucosidases for enzymatic production of human milk oligosaccharides. *New Biotechnology* <https://doi.org/10.1016/j.nbt.2017.12.002>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Substrate specificity and transfuosylation activity of GH29 α -L-fucosidases for enzymatic production of human milk oligosaccharides
