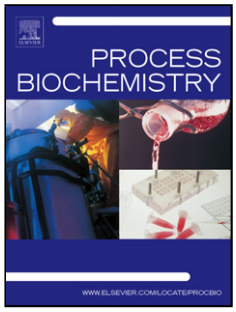
Accepted Manuscript



Title: Fermentation optimization and mathematical modeling of glycerol-based microbial poly(3-hydroxybutyrate) production

Authors: Mriganko Das, Abhinav Grover

PII: S1359-5113(18)30373-8
DOI: https://doi.org/10.1016/j.procbio.2018.05.017
Reference: PRBI 11353

To appear in: *Process Biochemistry*

Received date: 8-3-2018
Revised date: 11-5-2018
Accepted date: 22-5-2018

Please cite this article as: Das M, Abhinav G, Fermentation optimization and mathematical modeling of glycerol-based microbial poly(3-hydroxybutyrate) production, *Process Biochemistry* (2018), https://doi.org/10.1016/j.procbio.2018.05.017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Fermentation optimization and mathematical modeling of glycerol-based microbial poly(3-hydroxybutyrate) production
