Title: A green and efficient hydration of alkynes catalyzed by hierarchically porous poly(ionic liquid)s solid strong acids

Authors: Duan-Jian Tao, Fujian Liu, Lin Wang, Lilong Jiang

PII: S0926-860X(18)30341-7
DOI: <https://doi.org/10.1016/j.apcata.2018.07.018>
Reference: APCATA 16744

To appear in: *Applied Catalysis A: General*

Received date: 30-5-2018
Revised date: 7-7-2018
Accepted date: 14-7-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

A green and efficient hydration of alkynes catalyzed by hierarchically porous poly(ionic liquid)s solid strong acids
