Title: Copper octacarboxyphthalocyanine as sensitizer of graphitic carbon nitride for efficient dye degradation under visible light irradiation

Authors: Seydou Ouedraogo, Bilel Chouchene, Christophe Desmarets, Thomas Gries, Lavinia Balan, René Fournet, Ghouti Medjahdi, Karifa Bayo, Raphaël Schneider

PII: S0926-860X(18)30314-4
DOI: <https://doi.org/10.1016/j.apcata.2018.06.036>
Reference: APCATA 16724

To appear in: *Applied Catalysis A: General*

Received date: 20-5-2018
Revised date: 20-6-2018
Accepted date: 26-6-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Copper octacarboxyphthalocyanine as sensitizer of graphitic carbon nitride for efficient dye degradation under visible light irradiation
