Impact of acid treatment of CuO-CeO₂ catalysts on the preferential oxidation of CO reaction

Joan Papavasiliou, John Vakros, George Avgouropoulos

PII: S1566-7367(18)30258-9
DOI: doi:[10.1016/j.catcom.2018.07.014](https://doi.org/10.1016/j.catcom.2018.07.014)
Reference: CATCOM 5454
To appear in: *Catalysis Communications*
Received date: 9 June 2018
Revised date: 15 July 2018
Accepted date: 16 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of acid treatment of CuO-CeO₂ catalysts on the preferential oxidation of CO reaction

Joan Papavasiliou^{1,2}, John Vakros^{3,*} and George Avgouropoulos^{1,*}
