

## Accepted Manuscript

Title: NiS sheets modified CdS/reduced graphene oxide composite for efficient visible light photocatalytic hydrogen evolution

Authors: Lei Li, Jie Wu, Baibai Liu, Xinjuan Liu, Can Li, Yinyan Gong, Yongli Huang, Likun Pan

PII: S0920-5861(18)30360-2  
DOI: <https://doi.org/10.1016/j.cattod.2018.03.072>  
Reference: CATTOD 11355

To appear in: *Catalysis Today*

Received date: 30-11-2017  
Revised date: 28-2-2018  
Accepted date: 28-3-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# NiS sheets modified CdS/reduced graphene oxide composite for efficient visible light photocatalytic hydrogen evolution
