Title: Effect of the preparation method on the hydrogenation activity of Ni/SBA-15 catalysts: Comparison of EDTA complexation and DPU

Authors: H. Vargas, J.C. Morales, X. Bokhimi, T.E. Klimova

PII: S0920-5861(17)30565-5
DOI: <http://dx.doi.org/10.1016/j.cattod.2017.08.043>
Reference: CATTOD 10986

To appear in: *Catalysis Today*

Received date: 9-5-2017
Revised date: 11-8-2017
Accepted date: 18-8-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Effect of the preparation method on the hydrogenation activity of Ni/SBA-15 catalysts: Comparison of EDTA complexation and DPU
