Title: Development of correlations for predicting hydrodesulfurization of straight-run gasoil by factorial model

Authors: Fernando Alonso, Jorge Ancheyta

PII: S0920-5861(17)30484-4
DOI: <http://dx.doi.org/doi:10.1016/j.cattod.2017.07.001>
Reference: CATTOD 10915

To appear in: *Catalysis Today*

Received date: 29-3-2017
Revised date: 20-6-2017
Accepted date: 2-7-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Development of correlations for predicting hydrodesulfurization of straight-run gasoil by factorial model
