

Accepted Manuscript

Title: Semi-crystalline Fe-BTC MOF material as an efficient support for enzyme immobilization

Authors: Victoria Gascón, Mayra B. Jiménez, Rosa M. Blanco, Manuel Sanchez-Sanchez

PII: S0920-5861(17)30719-8
DOI: <https://doi.org/10.1016/j.cattod.2017.10.022>
Reference: CATTOD 11089

To appear in: *Catalysis Today*

Received date: 14-5-2017
Revised date: 29-9-2017
Accepted date: 24-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Semi-crystalline Fe-BTC MOF material as an efficient support for enzyme immobilization
