

Accepted Manuscript

Title: Fermentation, thermochemical and catalytic processes in the transformation of biomass through efficient biorefineries

Authors: Carlos Ariel Cardona Alzate, Juan Camilo Solarte Toro, Álvaro Gómez Peña

PII: S0920-5861(17)30641-7
DOI: <http://dx.doi.org/10.1016/j.cattod.2017.09.034>
Reference: CATTOD 11039

To appear in: *Catalysis Today*

Received date: 22-12-2016
Revised date: 26-8-2017
Accepted date: 15-9-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Fermentation, thermochemical and catalytic processes in the transformation of biomass through efficient biorefineries.

Carlos Ariel Cardona Alzate*, Juan Camilo Solarte Toro, Álvaro Gómez Peña.
