Armstrongite at non-ambient conditions: An *in-situ* high-pressure single-crystal X-ray diffraction study

Davide Comboni, Paolo Lotti, G. Diego Gatta, Maria Lacalamita, Ernesto Mesto, Marco Merlini, Michael Hanfland

PII: S1387-1811(18)30422-0

DOI: [10.1016/j.micromeso.2018.07.047](https://doi.org/10.1016/j.micromeso.2018.07.047)

Reference: MICMAT 9057

To appear in: *Microporous and Mesoporous Materials*

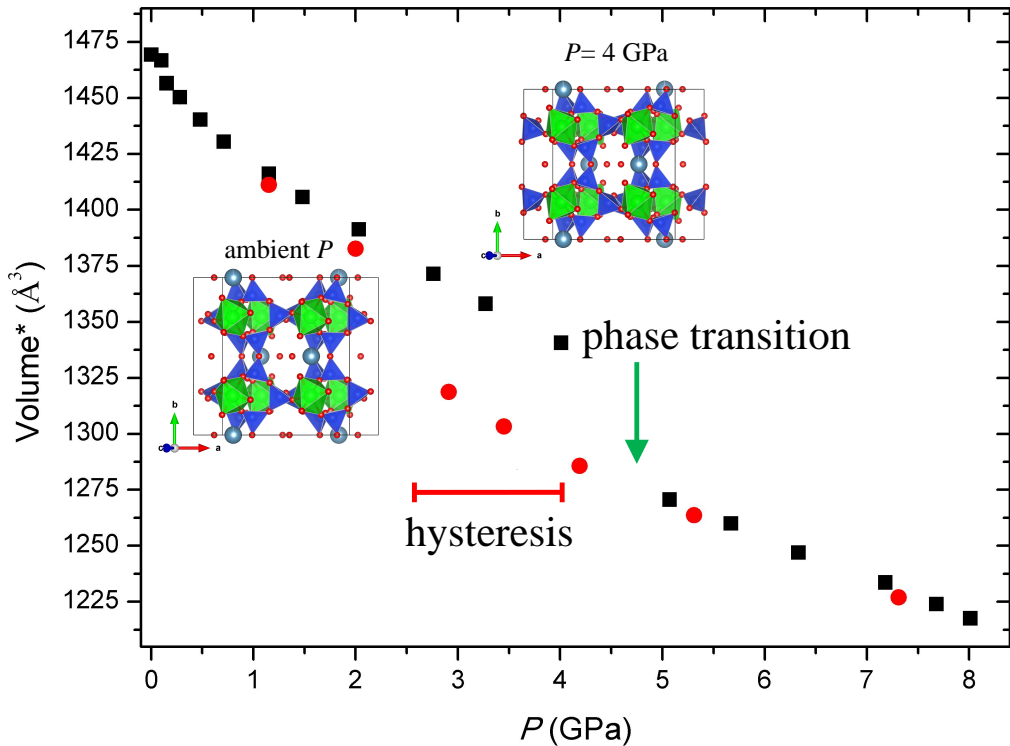

Received Date: 14 June 2018

Revised Date: 27 July 2018

Accepted Date: 30 July 2018

Hanfland, Armstrongite at non-ambient conditions: An *in-situ* high-pressure single-crystal X-ray diffraction study, *Microporous and Mesoporous Materials* (2018), doi: 10.1016/j.micromeso.2018.07.047.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
