Rapid synthesis of SAPO-34 nanocatalyst by dry gel conversion method templated with morpholine: investigating the effects of experimental parameters

Sima Askari, Zahra Sedighi, Rouein Halladj

PII: S1387-1811(14)00346-1

DOI: <http://dx.doi.org/10.1016/j.micromeso.2014.06.028>

Reference: MICMAT 6620

To appear in: *Microporous and Mesoporous Materials*

Received Date: 17 December 2013

Revised Date: 13 June 2014

Accepted Date: 23 June 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Rapid synthesis of SAPO-34 nanocatalyst by dry gel conversion method templated with morpholine: investigating the effects of experimental parameters
