

## Accepted Manuscript

Title: An investigation of the snowpack signal in moisture-sensitive trees from the Southern Canadian Cordillera

Author: Emma Watson Brian H. Luckman

PII: S1125-7865(16)30028-5  
DOI: <http://dx.doi.org/doi:10.1016/j.dendro.2016.03.008>  
Reference: DENDRO 25376

To appear in:

Received date: 21-8-2015  
Revised date: 29-2-2016  
Accepted date: 8-3-2016

Please cite this article as: Watson, Emma, Luckman, Brian H., An investigation of the snowpack signal in moisture-sensitive trees from the Southern Canadian Cordillera. *Dendrochronologia* <http://dx.doi.org/10.1016/j.dendro.2016.03.008>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**An investigation of the snowpack signal in moisture-sensitive trees from  
the Southern Canadian Cordillera**
