This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1 **Aspartic Acid Racemization in Dentin of the Third Molar for Age Estimation of**
2 **the Chaoshan Population in South China**

3

4 **Highlights :**

- 5 ·AAR of third molar dentin can be used to accurate estimate age in Chaoshanese.
6 ·Hot tea drinking did no effect the accuracy of age estimation base on it.
7 ·There was no difference in AAR ratio of third molar dentin between sexes or jaws.
