

# Accepted Manuscript

The big data potential of epidemiological studies for criminology and forensics

Matt DeLisi

PII: S1752-928X(16)30116-0

DOI: [10.1016/j.jflm.2016.09.004](https://doi.org/10.1016/j.jflm.2016.09.004)

Reference: YJFLM 1412

To appear in: *Journal of Forensic and Legal Medicine*

Received Date: 3 May 2016

Revised Date: 29 August 2016

Accepted Date: 5 September 2016

Please cite this article as: DeLisi M, The big data potential of epidemiological studies for criminology and forensics, *Journal of Forensic and Legal Medicine* (2016), doi: 10.1016/j.jflm.2016.09.004.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
