Health behind bars: can exploring the history of prison health systems impact future policy?

Kathryn M. Weston, Louella R. McCarthy, Isobelle Barrett Meyering, Stephen Hampton, Tobias Mackinnon

PII: S1752-928X(17)30204-4

DOI: [10.1016/j.jflm.2017.12.011](https://doi.org/10.1016/j.jflm.2017.12.011)

Reference: YJFLM 1600

To appear in: *Journal of Forensic and Legal Medicine*

Received Date: 13 September 2017

Accepted Date: 29 December 2017

Please cite this article as: Weston KM, McCarthy LR, Meyering IB, Hampton S, Mackinnon T, Health behind bars: can exploring the history of prison health systems impact future policy?, *Journal of Forensic and Legal Medicine* (2018), doi: 10.1016/j.jflm.2017.12.011.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Health behind bars: can exploring the history of prison health systems impact future policy?

Highlights

- The health of prison populations often represents ‘multi-dimensional disadvantage’
- Disease trends, societal attitudes and political forces influence prison healthcare
- Examining historical links between policy and health advances new thinking
- Greater familiarity with our shared history will promote ‘de-othering’ prisoners
