

## Accepted Manuscript

Efficient COD degradation of turpentine processing wastewater by combination of Fe-C micro-electrolysis and Fenton treatment: long-term study and scale up

Chao Huang, Fen Peng, Hai-Jun Guo, Can Wang, Mu-Tan Luo, Cheng Zhao, Lian Xiong, Xue-Fang Chen, Xin-De Chen

PII: S1385-8947(18)31176-8  
DOI: <https://doi.org/10.1016/j.cej.2018.06.139>  
Reference: CEJ 19350

To appear in: *Chemical Engineering Journal*

Received Date: 7 February 2018  
Revised Date: 17 June 2018  
Accepted Date: 21 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
