Investigating the aerated VUV/PS process simultaneously generating hydroxyl and sulfate radicals for the oxidation of cyanide in aqueous solution and industrial wastewater

Gholamreza Moussavi, Mojtaba Pourakbar, Ehsan Aghayani, Mostafa Mahdavianpour

PII: S1385-8947(18)31002-7
DOI: <https://doi.org/10.1016/j.cej.2018.05.178>
Reference: CEJ 19194

To appear in: *Chemical Engineering Journal*

Received Date: 17 February 2018
Revised Date: 23 May 2018
Accepted Date: 30 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Investigating the aerated VUV/PS process simultaneously generating
hydroxyl and sulfate radicals for the oxidation of cyanide in aqueous
solution and industrial wastewater
