Electrokinetic removal of chromium from chromite ore-processing residue using graphite particle-supported nanoscale zero-valent iron as the three-dimensional electrode

Tao Huang, Longfei Liu, Lulu Zhou, Shuwen Zhang

PII: S1385-8947(18)31086-6
DOI: <https://doi.org/10.1016/j.cej.2018.06.048>
Reference: CEJ 19259

To appear in: *Chemical Engineering Journal*

Received Date: 12 March 2018
Revised Date: 7 June 2018
Accepted Date: 9 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Electrokinetic removal of chromium from chromite ore-processing residue using graphite
particle-supported nanoscale zero-valent iron as the three-dimensional electrode**
