Enhancing enzyme activity and enantioselectivity of *Burkholderia cepacia* lipase via immobilization on melamine-glutaraldehyde dendrimer modified magnetic nanoparticles

Kai Li, Jianhua Wang, Yaojia He, Guli Cui, Miaad Adnan Abdulrazaq, Yunjun Yan

PII: S1385-8947(18)31126-4
DOI: <https://doi.org/10.1016/j.cej.2018.06.086>
Reference: CEJ 19297

To appear in: *Chemical Engineering Journal*

Received Date: 11 December 2017
Revised Date: 4 June 2018
Accepted Date: 13 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Enhancing enzyme activity and enantioselectivity of *Burkholderia cepacia* lipase via immobilization on melamine-glutaraldehyde dendrimer modified magnetic nanoparticles
