Silica encapsulated catalase@metal-organic framework composite: a highly stable and recyclable biocatalyst

Jiandong Cui, Yuxiao Feng, Shiru Jia

PII: S1385-8947(18)31159-8
DOI: <https://doi.org/10.1016/j.cej.2018.06.121>
Reference: CEJ 19332

To appear in: *Chemical Engineering Journal*

Received Date: 20 November 2017
Revised Date: 15 June 2018
Accepted Date: 18 June 2018

Please cite this article as: J. Cui, Y. Feng, S. Jia, Silica encapsulated catalase@metal-organic framework composite: a highly stable and recyclable biocatalyst, *Chemical Engineering Journal* (2018), doi: <https://doi.org/10.1016/j.cej.2018.06.121>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Silica encapsulated catalase@metal-organic framework composite: a highly stable and recyclable biocatalyst
