Disulfide polymer grafted porous carbon composites for heavy metal removal from stormwater runoff

Dongah Ko, Paul D. Mines, Mogens H. Jakobsen, Cafer T. Yavuz, Hans Chr. B. Hansen, Henrik R. Andersen

PII: S1385-8947(18)30765-4
DOI: <https://doi.org/10.1016/j.cej.2018.04.192>
Reference: CEJ 18992

To appear in: *Chemical Engineering Journal*

Received Date: 10 January 2018
Revised Date: 26 April 2018
Accepted Date: 27 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Disulfide polymer grafted porous carbon composites for heavy metal removal from stormwater runoff
