Performance and modeling of UV/Persulfate/Ce(IV) process as a dual oxidant photochemical treatment system: kinetic study and operating cost estimation

Ali Reza Soleymani, Mohammad Moradi

PII: S1385-8947(18)30669-7
DOI: <https://doi.org/10.1016/j.cej.2018.04.093>
Reference: CEJ 18893

To appear in: *Chemical Engineering Journal*

Received Date: 7 January 2018
Revised Date: 31 March 2018
Accepted Date: 14 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Performance and modeling of UV/Persulfate/Ce(IV) process as a dual oxidant photochemical treatment system: kinetic study and operating cost estimation
