Co₃O₄ and its composites for high-performance Li-ion batteries

Yuxin Shi, Xiaofan Pan, Bing Li, Mingming Zhao, Huan Pang

PII: S1385-8947(18)30365-6

DOI: <https://doi.org/10.1016/j.cej.2018.03.024>

Reference: CEJ 18631

To appear in: *Chemical Engineering Journal*

Received Date: 22 December 2017

Revised Date: 3 March 2018

Accepted Date: 5 March 2018

Please cite this article as: Y. Shi, X. Pan, B. Li, M. Zhao, H. Pang, Co₃O₄ and its composites for high-performance Li-ion batteries, *Chemical Engineering Journal* (2018), doi: <https://doi.org/10.1016/j.cej.2018.03.024>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Co₃O₄ and its composites for high-performance Li-ion batteries
