Interactive effects between tetracycline and nitrosifying sludge microbiota in a nitritation membrane bioreactor

Binbin Sheng, Haiying Cong, Shaoqing Zhang, Fangang Meng

PII: S1385-8947(18)30208-0
DOI: <https://doi.org/10.1016/j.cej.2018.02.013>
Reference: CEJ 18492

To appear in: *Chemical Engineering Journal*

Received Date: 16 November 2017
Revised Date: 1 February 2018
Accepted Date: 3 February 2018

Please cite this article as: B. Sheng, H. Cong, S. Zhang, F. Meng, Interactive effects between tetracycline and nitrosifying sludge microbiota in a nitritation membrane bioreactor, *Chemical Engineering Journal* (2018), doi: <https://doi.org/10.1016/j.cej.2018.02.013>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Interactive effects between tetracycline and nitrosifying sludge microbiota in a nitrification membrane bioreactor
