In tandem effects of activated carbon and quorum quenching on fouling control and simultaneous removal of pharmaceutical compounds in membrane bioreactors

Yeyuan Xiao, Hira Waheed, Keke Xiao, Imran Hashmi, Yan Zhou

PII: S1385-8947(18)30284-5
DOI: <https://doi.org/10.1016/j.cej.2018.02.073>
Reference: CEJ 18552

To appear in: *Chemical Engineering Journal*

Received Date: 12 January 2018
Revised Date: 14 February 2018
Accepted Date: 15 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

In tandem effects of activated carbon and quorum quenching on fouling control and simultaneous removal of pharmaceutical compounds in membrane bioreactors
