Remediation of pyrene-contaminated soil by active species generated from flat-plate dielectric barrier discharge

Ruiwen Mu, Yanan Liu, Rui Li, Gang Xue, Stéphanie Ognier

PII: S1385-8947(16)30359-X
DOI: <http://dx.doi.org/10.1016/j.cej.2016.03.106>
Reference: CEJ 14958

To appear in: *Chemical Engineering Journal*

Received Date: 5 November 2015
Revised Date: 3 March 2016
Accepted Date: 19 March 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Remediation of pyrene-contaminated soil by active species generated
from flat-plate dielectric barrier discharge**
