Novel abiotic reactions increase nitrous oxide production during partial nitrification: Modeling and experiments

Willie F. Harper Jr., Yuki Takeuchi, Shohei Riya, Masaaki Hosomi, Akihiko Terada

PII: S1385-8947(15)00949-3

DOI: <http://dx.doi.org/10.1016/j.cej.2015.06.109>

Reference: CEJ 13881

To appear in: *Chemical Engineering Journal*

Received Date: 6 May 2015

Revised Date: 24 June 2015

Accepted Date: 25 June 2015

Please cite this article as: W.F. Harper Jr., Y. Takeuchi, S. Riya, M. Hosomi, A. Terada, Novel abiotic reactions increase nitrous oxide production during partial nitrification: Modeling and experiments, *Chemical Engineering Journal* (2015), doi: <http://dx.doi.org/10.1016/j.cej.2015.06.109>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Novel abiotic reactions increase nitrous oxide production during partial nitrification: Modeling
and experiments
