

Accepted Manuscript

Nanoscale zero-valent iron particles for the remediation of plutonium and uranium contaminated solutions

Richard A. Crane, Michelle Dickinson, Thomas B. Scott

PII: S1385-8947(14)01280-7
DOI: <http://dx.doi.org/10.1016/j.cej.2014.09.084>
Reference: CEJ 12702

To appear in: *Chemical Engineering Journal*

Received Date: 14 August 2014
Revised Date: 17 September 2014
Accepted Date: 24 September 2014

Please cite this article as: R.A. Crane, M. Dickinson, T.B. Scott, Nanoscale zero-valent iron particles for the remediation of plutonium and uranium contaminated solutions, *Chemical Engineering Journal* (2014), doi: <http://dx.doi.org/10.1016/j.cej.2014.09.084>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Nanoscale zero-valent iron particles for the remediation of
plutonium and uranium contaminated solutions
