Efficient adsorption of methylene blue on an alginate-based nanocomposite hydrogel enhanced by organo-illite/smectite clay

Yizhe Wang, Wenbo Wang, Aiqin Wang

PII: S1385-8947(13)00588-3
DOI: <http://dx.doi.org/10.1016/j.cej.2013.04.090>
Reference: CEJ 10705

To appear in: *Chemical Engineering Journal*

Received Date: 2 March 2013
Revised Date: 24 April 2013
Accepted Date: 26 April 2013

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
