

## Accepted Manuscript

Simulations of particulate flow passing through membrane pore under dead-end and constant-pressure filtration condition

Yasushi Mino, Shohei Sakai, Hideto Matsuyama

PII: S0009-2509(18)30359-2  
DOI: <https://doi.org/10.1016/j.ces.2018.05.061>  
Reference: CES 14270

To appear in: *Chemical Engineering Science*

Received Date: 20 March 2018  
Revised Date: 30 May 2018  
Accepted Date: 31 May 2018

Please cite this article as: Y. Mino, S. Sakai, H. Matsuyama, Simulations of particulate flow passing through membrane pore under dead-end and constant-pressure filtration condition, *Chemical Engineering Science* (2018), doi: <https://doi.org/10.1016/j.ces.2018.05.061>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Simulations of particulate flow passing through membrane pore  
under dead-end and constant-pressure filtration condition
