

Accepted Manuscript

A phase inversion based sponge-like Polysulfonamide/SiO₂ composite separator for high performance lithium-ion batteries

Xiao Wang, Gaojie Xu, Qingfu Wang, Chenglong Lu, Chengzhong Zong, Jianjun Zhang, Liping Yue, Guanglei Cui

PII: S1004-9541(17)31034-0
DOI: <https://doi.org/10.1016/j.cjche.2017.12.010>
Reference: CJCHE 1001

To appear in:

Received date: 11 September 2017
Revised date: 22 December 2017
Accepted date: 23 December 2017

Please cite this article as: Xiao Wang, Gaojie Xu, Qingfu Wang, Chenglong Lu, Chengzhong Zong, Jianjun Zhang, Liping Yue, Guanglei Cui , A phase inversion based sponge-like Polysulfonamide/SiO₂ composite separator for high performance lithium-ion batteries. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Cjche(2018), <https://doi.org/10.1016/j.cjche.2017.12.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Separation Science and Engineering

A Phase Inversion Based Sponge-like Polysulfonamide/SiO₂ Composite Separator for High Performance Lithium-Ion Batteries[☆]
