Title: Data-Driven Individual and Joint Chance-Constrained Optimization via Kernel Smoothing

Author: B.A. Calfa I.E. Grossmann A. Agarwal S.J. Bury J.M. Wassick

PII: S0098-1354(15)00113-1
DOI: http://dx.doi.org/doi:10.1016/j.compchemeng.2015.04.012
Reference: CACE 5165

To appear in: *Computers and Chemical Engineering*

Received date: 21-10-2014
Revised date: 11-4-2015
Accepted date: 13-4-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

ACCEPTED MANUSCRIPT

Highlights

- Reformulation of individual and joint chance constraints using kernel smoothing.
- Method to calculate the divergence tolerance based on kernel smoothing estimation.
- Initialization scheme for joint chance-constrained problems.
- Application in production planning with variability in production rates.
