Ag and AgCu as brazing materials for Ti6Al4V-Y₃Al₅O₁₂ joints: Does ennoblement affect the galvanic behaviour in seawater?

Alessandro Benedetti, Sofia Gambaro, Fabrizio Valenza, Marco Faimali, Matteo Colli, Jan Hostaša, Marina Delucchi

PII: S0013-4686(18)31372-0

DOI: [10.1016/j.electacta.2018.06.084](https://doi.org/10.1016/j.electacta.2018.06.084)

Reference: EA 32077

To appear in: *Electrochimica Acta*

Received Date: 9 March 2018

Revised Date: 11 June 2018

Accepted Date: 11 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
