

Accepted Manuscript

The ion and water transport properties of K^+ and Na^+ form perfluorosulfonic acid polymer

Jing Peng, Mengkun Tian, Nelly M. Cantillo, Thomas Zawodzinski

PII: S0013-4686(18)31323-9

DOI: [10.1016/j.electacta.2018.06.035](https://doi.org/10.1016/j.electacta.2018.06.035)

Reference: EA 32028

To appear in: *Electrochimica Acta*

Received Date: 9 March 2018

Revised Date: 2 June 2018

Accepted Date: 5 June 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The ion and water transport properties of K^+ and Na^+ form perfluorosulfonic acid polymer
