Layered farnatinite nanoplates as an advanced pseudocapacitive electrode material for supercapacitor applications

Vimal Kumar Mariappan, Karthikeyan Krishnamoorthy, Parthiban Pazhamalai, Surjit Sahoo, Sang Jae Kim

PII: S0013-4686(18)30886-7

DOI: [10.1016/j.electacta.2018.04.126](https://doi.org/10.1016/j.electacta.2018.04.126)

Reference: EA 31693

To appear in: *Electrochimica Acta*

Received Date: 6 February 2018

Revised Date: 31 March 2018

Accepted Date: 17 April 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Layered famatinite nanoplates as an advanced pseudocapacitive electrode material for
supercapacitor applications**
