

Accepted Manuscript

A new high performance ionic liquid mixture electrolyte for large temperature range supercapacitor applications (-70°C – 80°C) operating at 3.5V cell voltage

Rodrigo Newell, Jérôme Faure-Vincent, Boyan Iliev, Thomas Schubert, David Aradilla

PII: S0013-4686(18)30358-X

DOI: [10.1016/j.electacta.2018.02.067](https://doi.org/10.1016/j.electacta.2018.02.067)

Reference: EA 31262

To appear in: *Electrochimica Acta*

Received Date: 22 October 2017

Revised Date: 31 January 2018

Accepted Date: 12 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**A new high performance ionic liquid mixture
electrolyte for large temperature range
supercapacitor applications (-70°C to 80°C)
operating at 3.5V cell voltage**
