

Accepted Manuscript

Two dimensional layered electron transport bridges in mesoscopic TiO₂ for dye sensitized solar cell applications

Gopika Gopakumar, Harigovind Menon, Aditya Ashok, Shantikumar V. Nair, Mariyappan Shanmugam

PII: S0013-4686(18)30344-X

DOI: [10.1016/j.electacta.2018.02.061](https://doi.org/10.1016/j.electacta.2018.02.061)

Reference: EA 31256

To appear in: *Electrochimica Acta*

Received Date: 16 August 2017

Revised Date: 29 January 2018

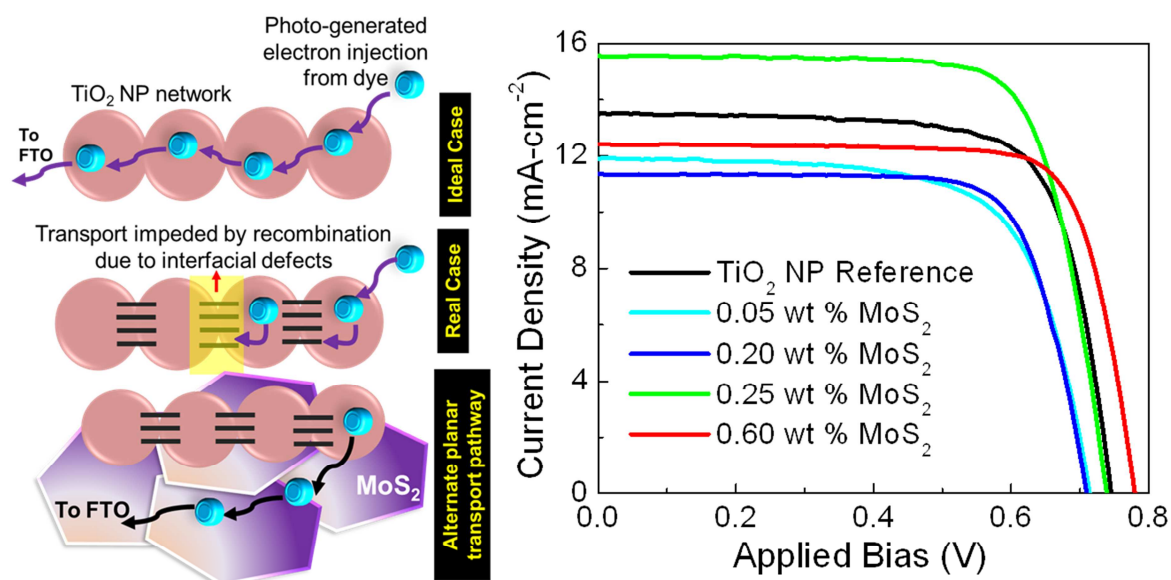

Accepted Date: 12 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

2D Layered MoS₂ in TiO₂ facilitates charge transport and improves DSSC performance
