Influence of rare earth elements on porosity controlled synthesis of MnO<sub>2</sub> nanostructures for supercapacitor applications

Rajesh Rajagopal, Kwang-Sun Ryu

PII: S0013-4686(18)30208-1

DOI: [10.1016/j.electacta.2018.01.161](https://doi.org/10.1016/j.electacta.2018.01.161)

Reference: EA 31143

To appear in: *Electrochimica Acta*

Received Date: 22 November 2017

Revised Date: 19 January 2018

Accepted Date: 25 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
