Dual function flower-like CoP/C nanosheets: High stability lithium-ion anode and excellent hydrogen evolution reaction catalyst

Wanwan Wang, Jianwen Li, Mengfan Bi, Yueying Zhao, Mengna Chen, Zhen Fang

PII: S0013-4686(17)32391-5

DOI: 10.1016/j.electacta.2017.11.040

Reference: EA 30630

To appear in: Electrochimica Acta

Received Date: 29 September 2017
Revised Date: 2 November 2017
Accepted Date: 7 November 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
