

## Accepted Manuscript

Title: Electric double layer in molten salts: Toward a more realistic model

Author: Jacek Kłos Stanisław Lamperski

PII: S0013-4686(16)31657-7

DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2016.07.139>

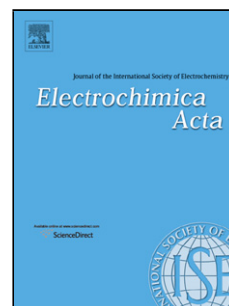

Reference: EA 27754

To appear in: *Electrochimica Acta*

Received date: 4-6-2016

Revised date: 20-7-2016

Accepted date: 25-7-2016

Please cite this article as: Jacek Kłos, Stanisław Lamperski, Electric double layer in molten salts: Toward a more realistic model, *Electrochimica Acta* <http://dx.doi.org/10.1016/j.electacta.2016.07.139>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Electric double layer in molten salts: Toward a more realistic model
