Title: In-Situ Monitoring of Local Corrosion Process of Scratched Epoxy Coated Carbon Steel in Simulated Pore Solution Containing Varying percentage of Chloride ions by Localized Electrochemical Impedance Spectroscopy

Author: T. Balusamy T. Nishimura

PII: S0013-4686(16)30295-X
DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2016.02.034>
Reference: EA 26642

To appear in: *Electrochimica Acta*

Received date: 24-11-2015
Revised date: 4-1-2016
Accepted date: 6-2-2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

In-Situ Monitoring of Local Corrosion Process of Scratched Epoxy Coated Carbon Steel in Simulated Pore Solution Containing Varying percentage of Chloride ions by Localized Electrochemical Impedance Spectroscopy[#]
