

## Accepted Manuscript

Title: The effect of the electrode material on the electrodeposition of zinc from deep eutectic solvents

Author: L. Vieira R. Schennach B. Gollas

PII: S0013-4686(15)30802-1

DOI: <http://dx.doi.org/doi:10.1016/j.electacta.2015.11.030>

Reference: EA 26030

To appear in: *Electrochimica Acta*

Received date: 12-9-2015

Revised date: 29-10-2015

Accepted date: 6-11-2015

Please cite this article as: L.Vieira, R.Schennach, B.Gollas, The effect of the electrode material on the electrodeposition of zinc from deep eutectic solvents, *Electrochimica Acta* <http://dx.doi.org/10.1016/j.electacta.2015.11.030>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# The effect of the electrode material on the electrodeposition of zinc from deep eutectic solvents
